

Every interim opportunity. One clear view.

From new assignment to the right professional. Spot new opportunities sooner and match them with the people you already have available.

Who we are

From manual searching to smarter sourcing

NIXZ is a Dutch software company that helps recruitment and staffing teams find and assess talent with AI-powered tools.

**700M+**

searchable profiles

5000+

daily users

4000+

interim roles / month

12+

ATS/CRM integrations

**Smarter search**

Search smarter in your own database and external assignments

**In your workflow**

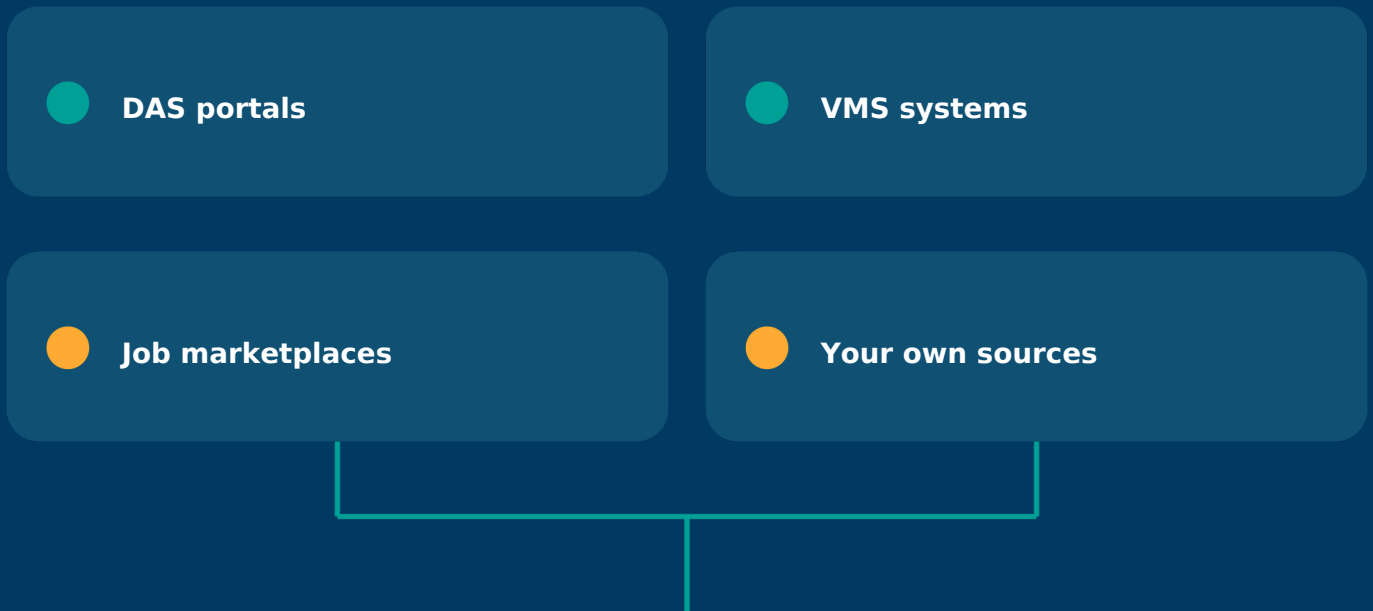

Use the NIXZ dashboard, browser plug-in or your ATS/CRM,. Whatever fits your team's workflow.

**Measurable results**

Spend less time searching, find better matches, and reduce the time your professionals spend between assignments.

New assignments are everywhere

Without one clear view, your team has to monitor multiple portals and process the same information repeatedly.

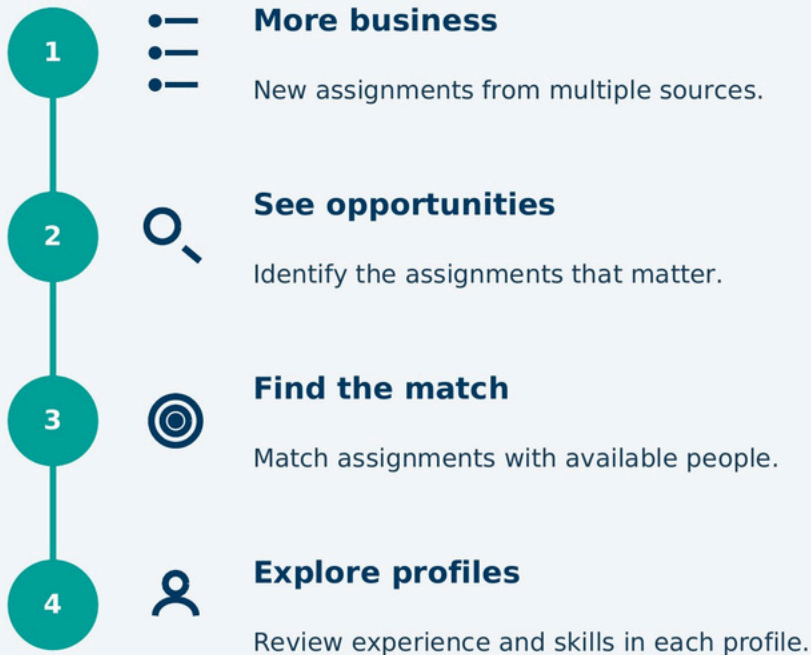

NIXZ Interim

Assignments collected, enriched and searchable in one place.

Spot new business and see which assignments fit your people.

From opportunity to match

Spot new assignments and see who is ready to put forward.

Match with people you already know

Your consultants

See availability and relevant experience.

Available talent

Make the most of people you already know.

External talent

Expand your reach when needed.

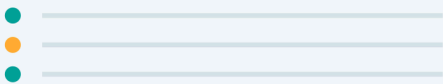

Your consultant stays in control. NIXZ surfaces relevant opportunities; your team decides who to put forward.

What can you do with NIXZ Interim?

Six practical features help you find, assess and follow up on new assignments faster.

01 Central inbox

Assignments from multiple sources in one view.

02 Spot opportunities

See relevant assignments as soon as they arrive.

- New assignment
- Relevant opportunity

03 Better matching

Match new assignments with available people.

Assignment → Consultant

04 Profile insights

Review experience and skills behind each match.

Experience

Skills

05 Notifications

Get notified when a relevant assignment arrives.

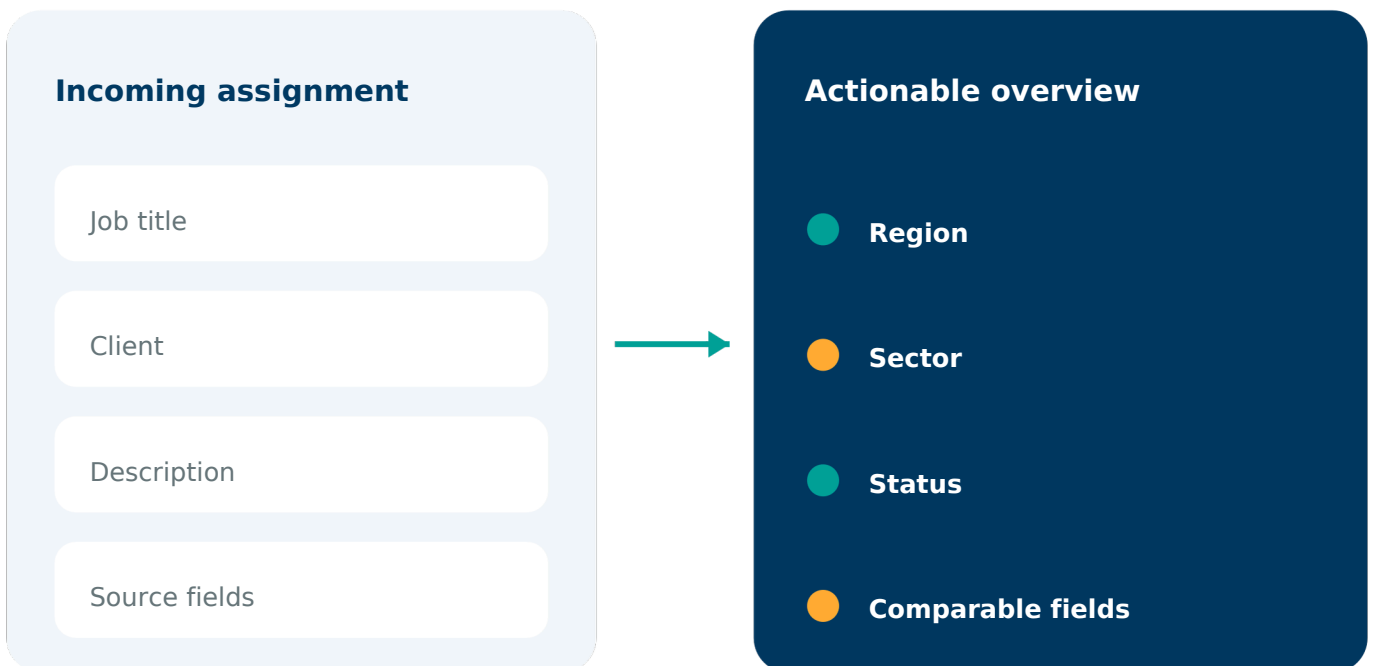

06 Live status

See whether an assignment is still open, where available.

- New
- Under review

Insight you can act on

Every source describes assignments differently. NIXZ structures and enriches the data so you can spot opportunities and match them with available people.

How does this help?

See incoming assignments, compare their requirements and decide which available professional fits each opportunity. Your team sets the priorities.

Connect the systems you trust

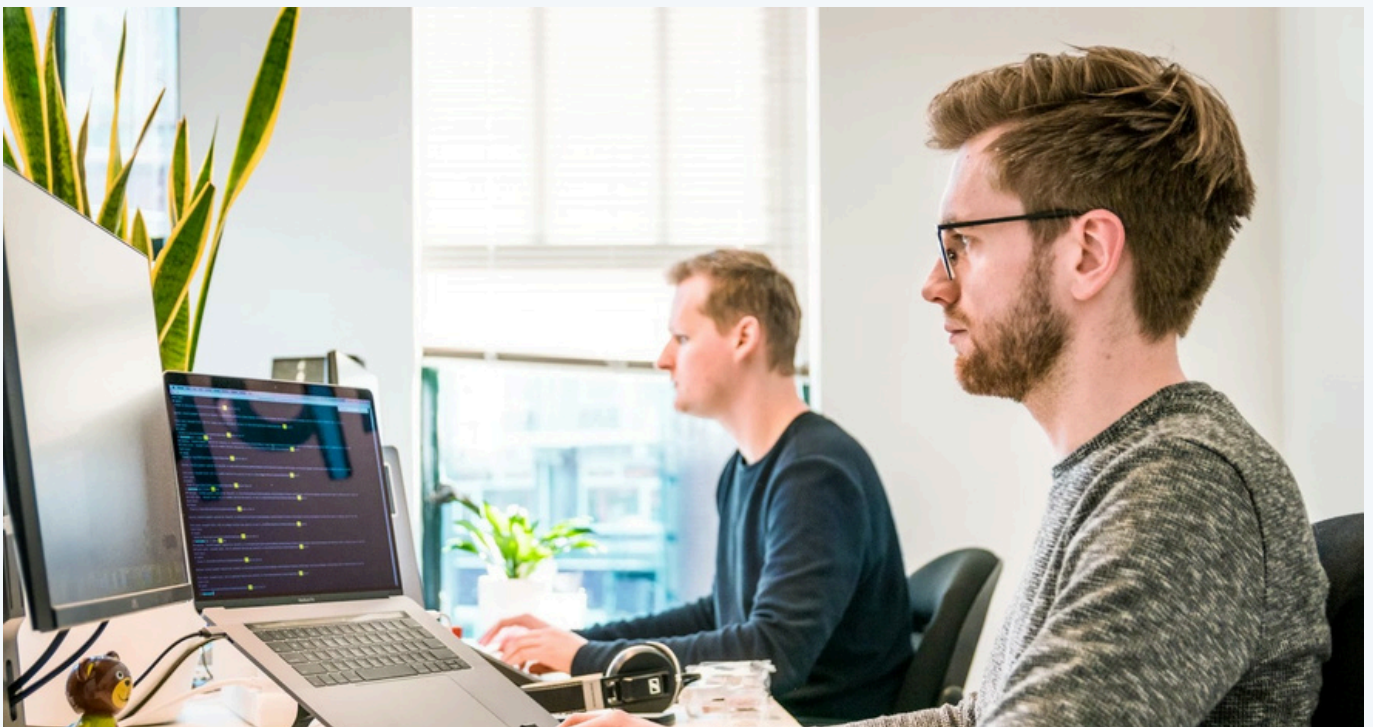

Trusted systems. One workflow.

NIXZ Interim gathers relevant assignments. Work with them in the dashboard or receive them in your ATS/CRM, aligned with your team's workflow.

Do not see your system? We will work with your developers to explore how to connect it.

De Transparante Broker

De Transparante Broker used NIXZ Interim to monitor assignments automatically and keep them in sync with its ATS. New opportunities appeared directly in the existing workflow.

“

I no longer have to search endlessly. The foundation is right, so I can focus my energy on comparison and conversation.

Michelle Kooijman
Recruitment Consultant · De Transparante Broker

Frequently asked questions

Practical answers for your team.

01

Do I need my own portal registrations?

Not to view assignments. Some portals require your own registration to submit candidates.

02

Can I search by region?

Yes. Filter by region and receive email alerts for matching assignments.

03

Which sources are connected?

Almost all DAS platforms and interim marketplaces. Ask support@nixz.io for the current list.

04

Does Interim support framework agreements?

Yes. Your own sources and framework agreements can also be connected.

05

Can assignments appear in my ATS?

Yes, through a supported ATS integration or the API.

Still have a question? support@nixz.io
