ATS/CRM integrations

**Smarter search**

Search your own database and external profiles.

**In your workflow**

Use the NIXZ dashboard, browser plug-in or your ATS/CRM—whatever fits your team's workflow.

**Measurable results**

Spend less time searching, find better matches and build shortlists faster.

From brief to shortlist

From the first brief to candidate outreach, your team makes the decisions. NIXZ speeds up search and assessment.

Your recruiter or consultant stays in control. AI explains the results; your team makes the final decision.

What can you do with NIXZ Source?

Four practical features turn your brief into a shortlist you can explain and act on.

01 Automatic filters

NIXZ suggests filters; you refine them.

Role	Data analyst	•
Location	Netherlands	•
Experience	5+ years	•

02 AI criteria

AI generates assessment criteria from your brief.

- ✓ Relevant experience
- ✓ Core skills
- ✓ Availability

03 Match score

See a percentage match for each profile.

Profile A		91%
Profile B		84%
Profile C		76%

04 Match reasoning

See how each criterion is met or missed.

- ✓ **Fits the brief**
- ⚠ Concern highlighted

You stay in control. Adjust the criteria and decide who makes the shortlist.

Connect with the tools you trust

One platform. Three ways to work.

Use NIXZ through the browser plug-in, its dashboard or your ATS/CRM. Search and review candidates where your team already works.

If your ATS/CRM is not listed, we will work with your developers to explore an integration.

Choose how you work with NIXZ

Compare three plans for teams of different sizes. Business includes every Team feature. Contact details and in-depth assessments use credits on every plan.
